

BRIAN E. BESTUDIO

Rand St. Phase 8, North Fairview, Quezon City | (+63) 977-757-0448/(+63) 993-038-6329 | bestudiobrian@gmail.com

PROFESSIONAL SUMMARY

Fresh IT graduate with hands-on experience in full-stack development, database management, and technical support. Completed an OJT at IBC 13 handling livestream operations and CMS development. Built a full clinic management system as a capstone project, handling both front-end development and database architecture using VB.NET and SQL. Eager to contribute technical skills in a professional IT environment.

EDUCATION

Colegio De Sta. Teresa De Avila <i>Bachelor of Science in Information Technology (BSIT)</i>	Novaliches, Quezon City 2022 – 2026
Integrated Innovation Hospitality College <i>Science, Technology, Engineering, and Mathematics (STEM)</i>	Novaliches, Quezon City 2020 – 2022
North Fairview High School <i>Junior High School</i>	Novaliches, Quezon City 2016 – 2020

EXPERIENCE

Intercontinental Broadcasting Corporation (IBC 13) <i>OJT – Streamer / Technical Support / Junior Web Developer</i>	February – May 2026 Quezon City, Philippines
- Developed the front-end of a Content Management System (CMS) - Set up and configured livestream software (OBS Studio, vMix) for broadcast operations - Managed and monitored live broadcasts on Facebook and YouTube - Troubleshoot stream issues including audio/video sync and connection drops - Provided hardware and software technical support	

CAPSTONE PROJECT

Optisys: Smart Optical Clinic Management and Decision Support System Using Descriptive Analytics for Acebedo Optical 2025 – 2026 <i>VB.NET 2013, SQLyog, MariaDB, Google Drive API</i>
- Built a full clinic management system to streamline administrative and clinical workflows for Acebedo Optical - Implemented descriptive analytics to support management decision-making and improve patient safety - Integrated Google Drive API for automated cloud backup of patient and inventory data

TECHNICAL SKILLS

- Languages & Frameworks: VB.NET, PHP, HTML5, CSS, JavaScript, React JS (fundamentals)
- Databases: MariaDB, SQLyog — schema design and basic query optimization
- Tools: OBS Studio, vMix, Google Drive API
- Hardware/software troubleshooting and technical support

PROFESSIONAL DEVELOPMENT

- Mastering React JS: From Fundamentals to Advanced Concepts – April 2026
- Myers-Briggs Type Indicator Introductory Course – April 2026
- Building Cyber Resilience: Strengthening Defense Against Evolving Threats – October 2024
- Cloud Computing: Unlocking the Power of Cloud Computing – May 2025
- The Metaverse: Beyond the Hype, Into the Future – May 2025
- Break the Boundaries of 3D Art: Master Blender for 3D Modeling and Animation – May 2025
